

Project 1 for CS421 – University of Illinois at Chicago

Name 1: [abc12@uic.edu](mailto:abc12@uic.edu)

Name 2: [def34@uic.edu](mailto:def34@uic.edu)

-----Setup-----

In the *execution* folder, give the following command on your command prompt terminal (Linux):  
*sh run.sh*

Alternatively, you can give the following command (in either Windows or Linux):

Please install required libraries using the following commands:

*pip install nltk*

*pip install numpy*

In the *execution* folder, give the following command on your command prompt:

*python nltkdemo.py*

-----Technique-----

A brief explanation of how you exploited POS tagging (and any other strategies used) to evaluate the essays. Also state some patterns of errors that you found.
